How It Works

The program will maximize your FDIC insurance coverage by sending funds — above current FDIC limits — to banks within the network, providing up to \$240,000,000 in FDIC insurance per insurable capacity.

Deposits in amounts less than \$250,000 are sent to each network bank for interest accrual.

These funds are swept into either interest-bearing deposit accounts or money market deposit accounts based on your account choice.

²Number of program banks will vary by client.
