

## Automate Your End-to-End AP Process

## End-to-End AP Automation and Payment Optimization Services

### Overview

For growing businesses, Stifel Bank AP is your solution for:

- Combining easy-to-use automation software with a human element for powerful payment services
- Offering payment flexibility for your vendors
- Enabling payment approval workflow and gaining greater control & security against fraud risk with two-factor authentication and segregation of duties

### Automate Your Invoice Process

Stifel Bank AP helps businesses make their payables easy and impactful. Our Stifel Bank AP solution automates your end-to-end AP process, from invoice capture through payment, while connecting with your ERP in real time to keep everything in sync. With Stifel Bank AP, you can increase AP efficiency while mitigating fraud risk and gaining greater visibility and control over your AP spend. Supporting specific user needs from AP staff to the CFO.

### Capture & Process

Eliminate manually entering and coding invoices, cutting checks, and dealing with supplier inquiries. Scale AP without adding headcount.

### Approve & Pay

Offload managing vendor payment details, apply best-in-class security controls, and ensure complete auditability across your AP process.

### Analyze

Fully automate payments by eliminating paper checks and shifting to ACH with seamless reconciliation and 2-way sync.
